

# CELEBRATE NATURE IN YOUR NEIGHBORHOOD!

Science  
Museum  
of Minnesota®

Explore, experiment, celebrate

## OVERVIEW

Let the Science Museum make your event a science celebration with some of our favorite hands-on activity stations. These experiments allow **kids and adults to work together** to explore, experiment, and have fun!

Our base science celebration event includes hands-on stations for up to **150 children and adults, for 90 minutes**. (We can also double the event size for up to 300 people, for more exploration fun!)

## PRICING

**Group size: 10-150**  
**Event time: 90 min**  
**Price: \$600**

**The length or the capacity of the event can be increased for an additional cost.**

## FREE PRE-K ADD-ON!

While most of our stations are appropriate for K-5 audiences, you can also add on a special general science area for your youngest learners at no additional cost, thanks to our partners at PNC!

## RECOMMENDED STATIONS

These stations about biology, ecology, and nature are what we'd recommend for an average Celebrate Nature in Your Neighborhood event. We're happy to discuss other available stations to best meet the needs of your theme, space, or attendees!

### Fishin' in the City

Gather around the lake to do some fishing in the city - but don't go over your limit!  
Serves 10-15 participants, ages K-5th  
Biology, ecology, and nature

### Water Critters

Identify some common aquatic critters, and see what they can tell you about water quality  
Serves 10-15 participants, ages K-5th  
Biology, ecology, and nature

### Chompin' and Chewin'

Get your hands on some real skulls and try matching up x-rays to bite marks in food  
Serves 10-15 participants, ages K-5th  
Biology, ecology, and nature

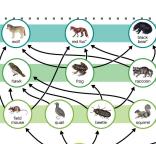

### Tracks and Traces

Explore traces that animals leave behind, and put some stamps in your paws-port  
Serves 10-15 participants, ages K-5th  
Biology, ecology, and nature

### Food Web Topple Tower

The complexities of food webs are on display as you remove animals from the tower- but don't let it topple!  
Serves 10-15 participants, ages K-5th  
Biology, ecology, and nature

### See the Seasons

See how plants, animals, and the environment change through the year  
Serves 10-15 participants, ages K-5th  
Biology, ecology, and nature
